

## SUMMARY

I'm a 27 year old from Belgium with a great passion for music, sports, the outdoors, human interaction and communication. In January 2024 I felt it was time to do something out of my comfort zone. For this reason, I moved to Barcelona for a change of scenery and a short focus on music. I have a degree in Communication, worked in Recruitment for over 3 years and have over 4 years of experience in the Hospitality sector to afford living as a student. Here, I enhanced my social and organisational skills. Currently on the lookout for new challenges.
