PROFESSIONAL PROFILE.

Drawing from experience in research, internal audit, and specialized skills in environmental economics and management, I am committed to fostering positive ESG outcomes. Following a career break from Jan 2020 residing in Sweden balancing personal and professional development, including maternity leave, linguistic enrichment, and part-time roles where I attained proficiency in Swedish language and multiple skills that complement my career. I am eager to re-enter the workforce, enthusiastic about seizing growth opportunities that allow me to make a profound impact in advancing organizational sustainability goals.
